I. "THE MAHARAJA OF TRAVANCORE CURZON PRIZE" for 1932, of the value of Rs. 350 shall be awarded for the best essay or thesis on "Agricultural or Physiological Chemistry" submitted by a graduate of the Madras University.

II. "THE SANKARA PARVATHY PRIZE" for 1932 of the value of Rs. 350 shall be awarded for the best essay or thesis on "Any topic connected with the Ancient Indian History" submitted by a graduate of the Madras University.

The Syndicate may grant a part only of the prize for a thesis not deemed worthy of receiving the whole prize, or may decline to award the prize on the ground of insufficient merit in the thesis submitted. When two or more essays or theses are considered to be of equal merit, the prize will be divided among the authors.

The essay or thesis should be an original work done by the candidate. The candidate shall indicate, by means of a footnote, the sources from which his information is taken, the extent to which he has availed himself of the work of others, the data or bases of his inferences or theories, and the portion of his thesis which he claims as original. He shall further state whether the research has been conducted independently, under any advice or co-operation with others, and in what respects his investigations appear to him to advance the study and knowledge of Ancient Indian History.

III "THE GOKHALE PRIZE" for 1933, of the value of Rs. 500 shall be awarded to the best essay or thesis on "Any topic connected with Indian Economics", submitted by a graduate in Arts of the Madras University, who was born and is resident within the territorial limits of the Madras University.

While competitors for the prize have unrestricted choice of subject within the limit of Indian Economics, the following suggestions on suitable topics and the methods of presentation are offered for their guidance:—

The economics of a particular industry in a particular locality—

(i) A candidate taking this subject should confine himself mainly to a locality so limited (but he can become personally acquainted with the whole of it, the rich illustrations of particular points drawn from published reports relating to other localities may well be used. The candidate should investigate family budgets and working conditions of typical families and endeavour to throw light upon the recent history and prospects of the industry and of those engaged in it.

(ii) The economic conditions of a particular agricultural district, either with special reference to some agricultural problem of general importance (e.g., fragmentation and excessive sub-division of holdings) or with reference to some important local problem such as that of house sites for Adi-Dravidas in the Tanjore delta, or the advantages and disadvantages of Marumakkattayam on the West Coast.

(iii) The economic conditions and problems of some particular caste or defined body of workers in either an urban or rural area, the object aimed at being an investigation similar to that of Mr. Arthur Davies into Anglo-Indian families in Madras, or that of Dr Harold Mann into untouchables in the village near Poona.

Competitors are not excluded from the choice of other subjects, but should select only such as are of sufficiently manageable dimensions as to permit of the production of essays and theses of possible value.

Competitors are warned that essays and theses, which do not either contain new facts or new interpretations of previously known facts, or present such regroupings of facts and ideas as make clearer than before some point of economic interest, will not be considered of merit sufficient to justify the prize.

NOTE.—The attention of the intending competitors for the above prizes is invited to the following important rules and conditions:—

(1) All essays or theses for the above prizes (except "The Gokhale Prize") should be sent by registered post, addressed to the Registrar, University of Madras, Triplicane P.O., Madras, so as to be received by him before the end of February 1932. Essays or theses for the "The Gokhale Prize" should be received before the end of February 1933.

(2) The essays or theses may be printed, typewritten, lithographed or written, but not in the competitor's own hand.

(3) No essay or thesis shall bear upon it the name of the competitor or anything whereby the identity of the author can be known by the persons to whom the essay or thesis may be sent for examination.

(4) Each essay or thesis for the prize shall be headed by a motto or *nom de plume*, selected by the candidate and shall be accompanied by a sealed cover bearing on the outside the competitor's motto or *nom de plume* and containing inside his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published.

(5) Theses received with open letters will not be considered.

IV "THE SIR WILLIAM WEDDERBURN PRIZE" for 1931—

Applications for the above prize will be received up to the 1st July 1931. The prize will be awarded to the student who, having qualified in Chemistry for the Degree of B.A. (Hons.) or B.Sc. (Hons.), or M.A. or M.Sc., not more than two years previously, has shown aptitude for research. Satisfactory evidence of aptitude for research must accompany the application.

2. Picking of cotton is in progress throughout the Presidency and will be finished by the end of this month.

3. Normal yields are expected only in Ganjam, Vizagapatam, Kurnool, Chittoor, North Arcot, Coimbatore and Madura (irrigated cotton), Tanjore, and the West Coast. Yields below normal are expected in the other districts.

The seasonal factor for the Presidency works out to 98 per cent of the average for irrigated cotton and 94 per cent for unirrigated cotton, the corresponding figures for last year being 94 per cent and 93 per cent. On this basis, the yield works out to 416,900 bales of 400 lb. lint against 512,930 bales in the previous year, a decrease of about 19 per cent and against an average of 523,753 bales. It is, however, too early to estimate the yield with accuracy as much will depend upon the subsequent weather conditions for the second crop and the toll taken by insect pests.

4. The estimated area and yield under the several varieties are given below :—

THE GROUNDNUT CROP OF 1931—FIRST REPORT.

The area sown with the summer or irrigated crop of groundnut in the districts of South Arcot, Chittoor, North Arcot and Tanjore during the three months January to March 1931 is estimated at 28,500 acres against 46,800 acres on the corresponding date of last year. The decrease is due mainly to want of rains during the sowing period and to the fall in the price of groundnut.

2. Figures by districts are given below :—
